Student Induction Program

Introduction

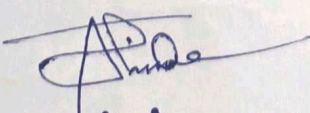

Transition from school to college life is one of the most challenging events in a student's life. When new students enter in an institution, they come with diverse thoughts, backgrounds and preparations. They come to new unfamiliar environment, and most of them have little knowledge of the college. Important tasks, therefore, is to aware new students to Higher Education and prepare them for their new role.

Currently, precious little is done by the most institutions, except for an orientation Program lasting a couple of days. Student Induction program is designed to help in the whole process. Therefore, it should be taken seriously, and as something more than the mere orientation program.

Purpose of Programme

The purpose of Student Induction Program is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them to build bonds with other students and faculty members, and expose them to a sense of large purpose and self exploration. Student Induction Programme engages with the new students as soon as they come into the institution, before regular classes start at the start of the induction, the incumbents learn about the institutional policies, practices, culture and values.
