**K. Z. S. SCIENCE COLLEGE  
DEPARTMENT OF PHYSICS**

**REPORT on CLEAN INDIA CAMPAIGN**

**To,**

IQAC Chairman

The principal

Dr. Anand Tikhe

**Subject:** Report on the *CLEAN INDIA CAMPAIGN* organized and conducted by the department of physics in the year 2019-2020.

Respected Sir,

With your prior permission, under Swachh Bharat Abhiyan (Govt. of India), the CLEAN INDIA CAMPAIGN was organized and conducted by physics department to the college on 1 march 2020. Total 55 students were participated, and campaigned in six villages in the Kalmeshwar tahasil, Viz, Mohpa, Deobardi, Mhasepathar, Khumari, Mandawi, and Mohgaon in the Kalmeshwar tahasil. Total 505 families were covered by the students in a day. This campaign was focused on the waste management under the title ***AWARENESS INRURAL SOCIETY- "Management to Daily Waste, Useful Goods and Useless Things"***. Villagers were satisfied by the students regarding the questions that how the family member should manage the daily waste, useful goods and useless things, also how the pesticides, fertilizers should manage and balance, why the e- waste like mobiles, batteries, chargers, radio receivers and T V sets should not be dumped in the house. If the wastes are useless then how these things may hazardous radioactively and chemically? We can neither thrown up them nor can fired. Our students tried well to convey the message to rural society through this campaign. In this campaign, the local administration, Gram panchayat and Nagar parishad cooperated well. In this regard our students called the meeting with Sarpanch and some villagers. The outcome of the meeting was very nice. The collaborative work with our students was committed by village authorities. They decided and committed to collect the polymer-plastic-rubber waste, chemical waste, poisonous waste, electronic waste and electrical waste separately, once in six months from the villagers and shops.

Regarding all above our students were tried well to convey the message to rural society. In such situation there should be coordination between Grampanchayat, Nagarparishad and Government. In this regard our students called the meeting with Sarpanch and some villagers. The outcome of the

meeting was very nice. The collaborative work with our students was committed by sarpanch Mr. Sanjay Kubade. He declared and decided to collect the polymer-plastic-rubber waste, chemical waste, poisonous waste, electronic waste and electrical waste separately, once in six months from the villagers and shops. His words were optimistic in case of calling the Government System for the desired help.

As a coordinator of the said project, I am very happy in submitting this report with some documents followed. It was our trial project. I am in hope to conduct the same project for Kalmeshwar town by including all the departments of our college.

Thanking you.

**Dr. Upendra Mahatme**

Asstt. Prof. - Physics  
K. Z. S. Sci. College

## 1. **CLEAN INDIA CAMPAIGN - 1 March 2020**

**Report on the *CLEAN INDIA CAMPAIGN* organized and conducted by the department of physics in the year 2019-2020.**

With your prior permission, under Swachh Bharat Abhiyan (Govt. of India), the CLEAN INDIA CAMPAIGN was organized and conducted by physics department of the college on 1 march 2020. Total 55 students were participated, and campaigned in six villages in the Kalmeshwar tahasil, Viz, Mohpa, Deobardi, Mhasepathar, Khumari, Mandawi, and Mohgaon in the Kalmeshwar tahasil. Total 505 families were covered by the students in a day. This campaign was focused on the waste management theme under the title ***AWARENESS IN RURAL SOCIETY-“Management of Daily Waste, Useful Goods and Useless Things”***. Villagers were satisfied by the students regarding the questions that how the family member should manage the daily waste, useful goods and useless things, also how the pesticides, fertilizers should manage and balance, why the e- waste like mobiles, batteries, chargers, radio receivers and T V sets should not be dumped in the house. If the wastes are useless then how these things may hazardous radioactively and chemically? We can neither thrown up them nor can fire. Our students tried well to convey the message to rural society through this campaign. In this campaign, the local administration, Gram panchayat and Nagar parishad cooperated well. In this regard our students called the meeting with Sarpanch and some villagers. The outcome of the meeting was very nice. The collaborative work with our students was committed by village authorities. They decided and committed to collect the polymer-plastic-rubber waste, chemical waste, poisonous waste, electronic waste and electrical waste separately, once in six months from the villagers and shops.

Regarding all above our students were tried well to convey the message to rural society. In such situation there should be coordination between Grampanchayat, Nagarparishad and Government.
